JOURNAL OF GEOCHEMICAL EXPLORATION

Contents Volume 52 (1995)

Special Issue

Heavy Metal Aspects of Mining Pollution and its Remediation, edited by R.J. Allan and W. Salomons

Preface v
Contents vi
Introduction 1
Environmental impact of metals derived from mining activities: Processes, predictions, prevention
W. Salomons 5
Trace elements in water, sediments, porewater, and biota polluted by tailings from an abandoned gold mine in British Columbia, Canada
J.M. Azcue, A. Mudroch, F. Rosa, G.E.M. Hall, T.A. Jackson and T. Reynoldson 25
Downstream effects of mine drainage on benthos and fish in a Norwegian river: a comparison of the situation before and after river rehabilitation
J.V. Arnekleiv and L. Størset 35
An integrated approach to the determination of the quantity, distribution, and dispersal of mercury in Lahontan Reservoir, Nevada, USA
J.R. Miller, P.J. Lechler, J. Rowland, M. Desilets and L.-C. Hsu 45
Geomorphology and pollution: the environmental impacts of lead mining, Leadhills, Scotland
J.S. Rowan, S.J.A. Barnes, S.L. Hetherington, B. Lambers and F. Parsons 57
Partitioning and complexation of copper in the Fly River, Papua New Guinea
S.C. Apte, W.I. Benko and G.M. Day 67
Impact of abandoned mine tailings on the arsenic concentrations in Moira Lake, Ontario
J.M. Azcue and J.O. Nriagu 81
Lead and sulphur isotope dilution during dispersion from the Falun mining area
P. Östlund, P. Torssander, C.-M. Mörth and S. Claesson 91
Selective scavenging of copper, zinc, lead, and arsenic by iron and manganese oxyhydroxide coatings on plankton in lakes polluted with mine and smelter wastes: results of energy dispersive X-ray micro-analysis
T.A. Jackson and T. Bistricki 97
Mercury contamination in the northern Pantanal region Mato Grosso, Brazil
W. Von Tümpling Jr., R.-D. Wilken and J. Einax 127
A summary of the effects of mining and related activities on the sediment-trace element geochemistry of Lake Coeur d'Alene, Idaho, USA
A.J. Horowitz, K.A. Elrick, J.A. Robbins and R.B. Cook 135
Light induced changes of Fe(II)/Fe(III) and their implications for colloidal forms of Al, Mn, Cu, Zn and Cd in an acidic lake polluted with mine waste effluents
S. Karlsson, K. Håkansson, A. Ledin and B. Allard 145
Environmental impact assessment of uranium mining and milling facilities: A study case at the Poços de Caldas uranium mining and milling site, Brazil
H.M. Fernandes, L.H.S. Veiga, M.R. Franklin, V.C.S. Prado and J.F. Taddei 161

Arsenic concentration in sediments near a metallurgical plant (Sepetiba Bay, Rio de Janeiro, Brazil)
V.F. De Magalhães and W.C. Pfeiffer 175
The effect of nickel mining and metallurgical activities on the distribution of heavy metals in Levisa Bay, Cuba
H. González and M. Ramírez 183
Contamination of riparian wetlands from past copper mining and smelting in the headwaters region of the Clark Fork River, Montana, U.S.A.
C. Johns 193
Development of proposed Canadian Environmental Quality Guidelines for cadmium
E.L. Porter, R.A. Kent, D.E. Andersen, K.A. Keenleyside, D. Milne, P. Cureton, S.L. Smith, K.G. Drouillard and D.D. MacDonald 205
Rehabilitation studies on an old non-ferrous waste dumping ground: effects of revegetation and metal immobilization by beringite
J. Vangronsveld, J. Sterckx, F. Van Assche and H. Clijsters 221
Changes in soil chemistry 20 years after the closure of a nickel–copper smelter near Sudbury, Ontario, Canada
D.G. Gundermann and T.C. Hutchinson 231
Trace metal contamination of soils and crop plants by the mining and smelting industry in Upper Silesia, South Poland
S. Dudka, M. Piotrowska, A. Chlopecka and T. Witek 237
Ecological impact and remediation of contaminated sites around lead smelters in Poland
J. Gzyl 251
Resistance to copper toxicity in some British willows
T. Punshon, N.W. Lepp and N.M. Dickinson 259
Environmental improvements by the mining industry in the Sudbury Basin of Canada
G.A. Crawford 267

Research papers
Geochemistry of till in Fennoscandia from ultra-low density sampling
P. Edén and A. Björklund 285
Petrology and mass-balance constraints on major-, trace-, and rare-earth-element mobility in porphyry–greisen alteration associated with the epizonal True Hill granite, southwestern New Brunswick, Canada
D.R. Lentz and C. Gregoire 303
Lithogeochemistry of altered rocks at the New Insco VMS deposit, Noranda, Quebec
S. Liaghat and H. MacLean 333
Anomalous gold, antimony, arsenic, and tungsten in ground water and alluvium around disseminated gold deposits along the Getchell Trend, Humboldt County, Nevada
D.J. Grimes, W.H. Ficklin, A.L. Meier and J.B. McHugh 351

Technical note
Possible effects of iron oxide coating in the recovery of particulate gold from stream sediments
K. Bheemalingeswara 373

Book reviews 381
